

Let's Work Together to Get It Right the First Time

About Us...

SCB Professional Solutions is a South African based specialised sourcing and procurement company focused on procuring high-quality goods and services for companies across all industries throughout the world.

Some of these industries and marketplaces include Chemical and Petrochemical, Freight and Shipping, Government and Municipal, Logistics, Production and Supply Chain, Manufacturing and Petroleum, to mention but a few.

Sourcing products and services places an enormous, even overwhelming, burden on your purchasing staff. Naturally, you want the highest possible quality and service at the lowest total cost. To consistently achieve these sometimes conflicting objectives while making the best use of time, you need a powerful ally: SCB Professional Solutions.

"Sourcing for an optimal balance"

Our Goal...

Our goal is to reduce procurement costs and to obtain the best prices available. We ensure goods / materials and services are supplied to the requested specifications and are delivered on time, every time.

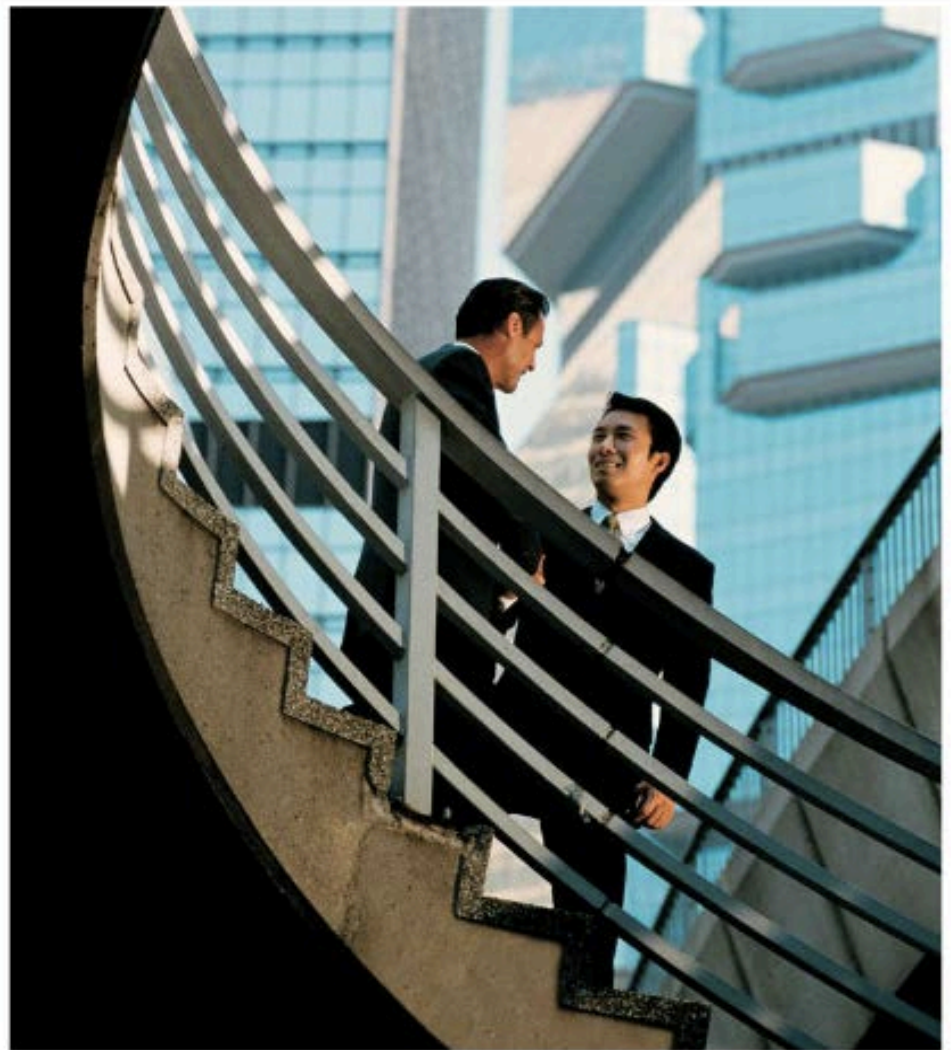

Put SCB Professional Solutions to work for your organisation, and take a major step toward reducing costs, decreasing manual tasks, and improving the ability to manage the acquisition of goods and services.

You Can Depend on Us...

At SCB Professional Solutions, we provide a professional service that you can depend on, designed to give you tangible, clear-cut results. We understand that each client has specific procurement needs and our capabilities as a supply chain resource allow us to apply cost effective procurement services to a wide range of industries.

We embark on each project with no preconceptions as to the “right way” to source and procure your requirement, but rather we adopt a pragmatic, commercial and positive approach designed to achieve a successful outcome.

We partner with you for your success.
